25 YEAR RE-REVIEW

ARCHIVAL RECORD
RETURN TO AGENCY ARCHIVES

	Approved For Release 2009/09/15 : CIA-RDP80-00810A000200180005-5	25X1
	2	. ' '
	Truck was a radio truck with a cube-shaped dipole antenna on its roof. A searchlight of about 1 meter in diameter was on a trailer which appeared to be made of metal. Another dipole antenna was on the roof of a second trailer. The work on the enlargement of the dump continued. About 30 men, all wearing red-bordered black epaulets constructed low wooden sheds. Two ventilation pipes were seen. Nine tank trucks and one tank trailer	25X1 25X1
	(also belonging to the tank trailer), were parked under the sheds.	
3.	Korneuburg. On 24 October, one weapon carrier was parked in front of the office and garage on Hoven Gasse in Korneuburg (0 49/S 30). The installation was guarded by sentries wearing red-bordered black enaulets. Office entering and leaving wore red-bordered black epaulets with artillery insignia.	
٠	A sentry with red-bordered black epoulets was seen for the first time guarding the building at 16 Wiener Strasse where 8 lieutenant colonels, about 12 majors, and 10 captains, all wearing red-bordered black epaulets with artillery insigna, were waiting. Some officers arrived on	
	motor vehicles which were parked in front of the building.	25 X 1
	all driven by soldiers wearing red-bordered black epaulets, Movable air target devices were seen in the cantonment on the road to Bisamberg. No AA guns were observed. Motor vehicles could be seen in the garages. The back of a shed	
	which sheltered 85-mm Af guns was being dismantled. Sedan and truck both driven by soldiers wearing red-bordered black	25X1
	epaulets, left the Albrechts Kaserne. Three trucks were parked at the Albrechts Kaserne. Trucks driven by soldiers wearing red-bordered black epaulets, were loaded with cases at the ration supply depot which was guarded by a sentry with red-bordered black epaulets and situated on Bahnhofplatz.	25X1
4.	Stockerau. In October 1952, a lieutenant colonel wearing red-bordered black epaulets with artillery insignia was seen entering the Prinz Sugan Kaserne in Stockerau (0 49/A 21). Seven trucks were parked in the yard. Truck	25X1
	left the Artillerie Kaserne.3	23/1
1.	Comment. The information indicates no change in the previous estimate of the occupation of the mentioned installations in Vienna. The two artillery pieces in the Albrechts Kaserne are probably the	25 X 1
	same light AA guns The large number of trucks and tank trucks parked in the Wilhelms Maserne indicates that the 722d Motor Transport Bn of the 13th Gds Mecz Div which is	25 X 1
	carried there, wasoccupying the quarters of its home station.	25 X 1
2.	Comment. The information confirms the presence of the 105th My Gds Tank SP Gun Regt or at least elements of this regiment, and the unidentified AAA regiment in the same barracks installation at kagram. The number of nine 35-mm AA guns is reported for the first time and is noteworthy but does not indicate an increase of the number of two medium AAA batteries stationed in Kagram which are believed to be equipped with not more than eight 35-mm AA guns. The five 37-mm AA guns and six AA machine guns are indicative for a light AAA battery and at least elements of an AA machine gun company sta-	
3.	tioned in Kagran.	25X1
